

27th January 2020

Dear Parent / Carer,

Thank you to those who attended the Relationship and Health Education 'drop in' session last Thursday. It was great to see you and get your feedback.

We have attached a document entitled 'Understanding Relationships and Health Education in your child's primary school: a guide for parents' that has been published by the Department for Education. For your information. It states that...

'We want all children to grow up healthy, happy, safe, and able to manage the challenges and opportunities of modern Britain. That is why, from September 2020, all primary age children will be taught Relationships and Health Education.'

With this in mind, we are in the beginning stages of a consultation period with your children, you and staff. We will also complete a local area study. The results of this piece of work will result in the design and development of a bespoke Relationships and Health Education Curriculum that fits our school.

Your children will be completing a questionnaire in the next few weeks so we can establish what their understanding is and what they would like to learn about. Following on from this we will invite you to complete a questionnaire so that we can consider your views. Finally, the local study will ensure that our curriculum meets the needs of your children within the community that they live. By September, we will have all the information and an exciting curriculum for your children to equip them to lead a healthy and successful life.

Many thanks, in advance for your support and thoughts on this.

Best wishes

Claire Kimberlee, Tracy Hosking, Jo Penk and Clare Phillips
